Product Name (1)	Batch Number	Strength	Schedule	NDC#	Package Quantity	Number of Full Containers	Partial Package Count	Total Volume to be Destroyed	Inventory verified by/Date	Comments
Enter Total weight of Completed Package (2)						LBS				

Instructions and Notes:

(1) - List all Schedule I-V Controlled Substances and complete all requested information-product name, strength, schedule, NDC#, No. of Containers, Contents, Inventory Verified By/Date. If you wish to include other non-controlled pharmaceuticals with your container, list these items and include the weight of these items in the quantity column.

(2) - Enter total weight of completed package including pail and box in pounds

A completed DEA Controlled Substances for Destruction Form (Container Inventory) including a listing of all DEA Schedule I-V drugs must be received prior to shipment of waste to Heritage. The form may be submitted via fax to (519) 489-2887 or electronically to Lifecycle@heritage-enviro.com. Upon receipt and approval of the inventory form, Heritage will send a Form 222 (if applicable) and return shipping label. For Schedule I - V controlled substances, all columns of the form must be completed. If any non-controls are included, complete the Product Name and Quantity columns only. Attach additional sheets if necessary.

For Internal Use Only:
